Contents

CLT   *Launch the Central Limit Theorem Shiny application*

Description

This function starts a Shiny application that demonstrates examples of the Central Limit Theorem. The app is stored internally within the package and showcases various statistical principles through interactive visualizations. It automatically checks for, installs (if missing), and loads necessary packages.

Usage

```
CLT()
```

Value

Runs shinyApp

Examples

```
## Not run:
  CLT()

## End(Not run)
```

---

shinyCLT	*shinyCLT*

Description

shinyCLT
